# NOAA Custom Charts

[NOAA Custom Chart](#) (NCC) is an online application that enables users to create their own customized nautical charts directly from the latest official NOAA electronic navigational chart (NOAA ENC®) data.. The user sets the paper size, scale, extents, units, safety contours, and other parameters to produce a printable PDF file of the chart in their area of interest.

*Point Woronzof, created for chart at 1:50,000 scale. Left: A 'traditional' paper chart (RNC); center: an Electronic Navigational Chart (ENC); right: a NOAA Custom Chart product (NCC).*
